

I Kinda Like It

It's complicated
How I'm feeling
Do I listen to my heart or to my head?
Run for cover
Or discover
The true meaning of what this is

It burns just like a wildfire
Burns make the sparks fly
Every time I hear your name

Baby baby
I feel it now I've got you somehow in my head?
Baby baby
Exciting and scary I'm taking a leap of faith
It's hard to tell if this is real
I'm falling and flying
Is this love that I feel
Somehow you're in my head
I kinda like it

It's like fireworks
It's exploding
Lighting up a sky I've never seen
It's like a puzzle
I'm tryin a finish
And you're the missing piece

It's a rush like I'm falling
A rush and it's happening
So fast I can't catch my breath

Chorus x 2

Woah woah woah
Woah woah woah you're in my head
Woah woah woah
Woah woah woah you're in my head
Woah woah woah
