Kaitlyn Thomas

**RELEASES BRAND NEW
SINGLE, "MAKE YOUR MOVE"**

20-year-old Victorian powerhouse, Kaitlyn Thomas, is taking 2021 by the horns and showing a completely different side to her music and a growth as a songwriter via her new single, "Make Your Move".

Kaitlyn says the song is "about the state of being carried away by an unreasoned passion and tirelessly waiting for them to make the first move but eventually taking matters into our own hands by giving them an ultimatum so we can move on".

While some songs take years to finish, "Make Your Move", started out as a spontaneous moment in her kitchen.

"I was making a salad and I just started singing which led to a vocal jam - complete with kitchen utensils - singing the hook of Make Your Move at the top of my lungs", laughed Kaitlyn.

"The hook quickly became an ear worm that I just had to write the song to go with it".

2021 has already started with a bang with performances alongside Darlinghurst and a main stage spot at the inaugural Road to Roma Festival in QLD.

"Make Your Move" is the third original country single from Kaitlyn Thomas and is out via Red Rebel Music/MGM Distribution.
