

Slow It Down

You mess with my heart
You mess with my mind
But I just like it better when you take my time
You gotta understand
Your always making plans
But if you want me to stick around
Slow it down

**You gotta slow it down before you reck the move
Honey I don't know what you tryin do
I like it when you come around
Slow it down**

I guess I kinda love ya
Your tryin to run my life
I'm 18 and way too young to be anybody's wife
You gotta understand your always making plans
But if you want me to stick around
Slow it down

Chorus x 2

I like it when you come around
Slow it down
