

# Make Your Move

Tell me what you wanna do  
Boy don't waste my time  
I ain't the kinda girl  
Who is the jealous type  
You keep on pushing me  
Sweet words that blur the lines  
I'm tired of standing still  
Gonna kick it into overdrive

**Do you want me  
As much as I want you  
Tell me do you want me  
Before the night is thru  
Coz we can't keep going back and forth  
And you keep on coming back for more  
Do you want me  
Coz I want you  
Boy tell me whatcha gonna do  
Make your move oooooo...  
Make your move ooo  
It's your move**

If your just playing games  
Then boy tell me now  
can't take much more of this  
Round and round and round and round  
You led me on long enough  
Right now I'll call your bluff  
Come on king of hearts  
It's time play your hand

## Chorus

Do you want me? x 3  
Do want me want me want me

## Chorus

Do you want me as much as I want you  
Tell me do you want me  
Before you break my heart in two  
Coz we can't keep going back and forth  
And you keep on coming back for more  
And I just need to know the score  
Yeah I just need to know for sure  
Let's dive on in and risk it all  
Or else I can't do this anymore  
Do you want me  
Let's lay it all on the line  
Do I have your heart coz you've got mine  
Stop making me the jealous type yeah

Now if you want me, you know where to find me  
I said if you want me, want me, want me  
Make your move
