

# First Kiss

I'm a sucker for a blue eyed blonde guy  
I've been waiting for you  
I know I'm old enough to not play shy  
But it's something you make me do

I've got a secrete  
If you'll keep it  
I Just want you to know

**I ain't had a first kiss  
So tell me what your waiting for  
Just lean in  
I can't hold it back no more  
Hurry up and go go  
Let me taste it slow slow  
First Kiss yeah  
Don't get much better than this this first kiss  
This this first kiss**

I've tasted rain from a spring time sun shower  
I've felt the wind blowing on my lips  
I bite my teeth into a hard task any hour  
But there's just one thing I've missed

E E Eighteen  
Da Da Daydream  
Come a little closer to me

## CHORUS

I got your hands on my waist  
I feel your breath on my face  
my heart is starting to race  
It's finally happening  
I get to close my eyes  
My body's been hypnotised  
Feels like this moment is right

## CHORUS
