

# Diamond Heart

Always wanna make you proud  
Feel you with me now  
On my shoulder when I'm crying or On a bus  
or when I'm singing for a crowd

Remember when we made a plan  
A visit to go see Anne  
Green gables, fences, wagon wheels  
Open fields and daisy chain crowns

**You're my diamond heart  
I'll carry you with me across the sea  
Like a ruby you're a precious star  
You are my diamond heart**

In summer you moved on  
But you're not gone  
You radiate inside me you whisper that  
I'm gonna be okay

You know I'm stubborn too  
Yeah I'm just like you  
I smile from my eyes  
To the way that I disguise  
a troubled mind

## **Chorus**

No longer trapped inside a body  
Your free to fly with angles now  
You will always be

## **Diamond Heart**

**I'll carry you with me across the sea  
Like a ruby you're a precious star  
You are my diamond heart**

**You are my diamond heart**
